

The International Journey to Excellence Conference 2014 Creating a Mindset for Growth and Development - Ideas, Implementation, Skills -

19-22 September, Antananarivo, Madagascar

Many countries, organizations, and individuals are finding it hard to create "their" place in our globalizing world. Mindsets, approaches and skill sets are increasingly failing to meet current needs. It is time to consider some alternatives! This conference will provide multiple platforms for sharing inspiring ideas and new approaches to today's challenges in the areas of *entrepreneurship, education, technology and the arts.*

Who should attend?

Days 1 and 2 are for leaders from all areas of society who are intent on supporting sustainable development. *Tickets for days 1 and 2 will also be valid for day 3, and are transferrable.*

Day 3 is for students and life-long learners of all ages who want to improve their personal skills to become more effective changemakers. *Separate tickets will be available for this day only.*

Program Outline

Day 1: "Ideas Day", Friday, 19 September

Be inspired by concise, visionary presentations made by an international group of speakers from a variety of disciplines. They have been selected for their forward-looking ideas and ability to challenge mindsets: how can we take development into our hands and grow our communities, businesses and other organizations in a positive, sustainable manner?

Day 2: "Implementation Day", Saturday, 20 September

Explore the implications and implementation of ideas presented the day before. "Ideas Day" presenters and other participants will jointly explore and address the questions and topics they find most pressing. What works, what doesn't? How could old problems be approached in new ways? What can we do - individually and together?

Day 3: "Skills Day", Monday, 22 September

Develop individual skills and competencies that enable you to live an *enterprising life*. "Ideas Day" presenters and other people with relevant knowledge and skills will lead practically-oriented training sessions and seminars designed for students and lifelong learners.

For the most up-to-date conference information, and the registration form, go to www.j2ex.net/?p=2314.
